*The Catkillers and our Friends were well represented and totaled 42 in number, with the second largest group attendance record. We were honored to have present family members of those memorialized on the monument and everyone appreciated their extra efforts to make this an even more memorable experience for all attendees.*

# Welcome Reception, Thursday evening, Dothan Country Club

Dothan Country Club allowed us to use their large facility for our welcome reception. There was food, music and much talk, if you could hear.

“Never before had the wife and I been surrounded by so many hero’s who had dedicated their life for our freedom. Its truly amazing the candid attitude and demeanor everyone displayed on their courageous mission in Vietnam whether it was up north or down south. Our children and grandchildren need to follow their example what true Americans can accomplish at their young age, most men I talked with were in the early or mid twenty’s when they were deployed. It’s a vast contrast to today’s youth and attitude. I would like to thank the Catkillers for inviting the wife and I to a once in a lifetime event, we truly enjoyed the company of the men of the 220th Catkillers and will be forever grateful. Yours truly, Bob and Donna Ramsay”

Bob Ramsay’s pilot looks forward. In the back seat of a Birdog, again, is a Ramsay, son of Marine Aerial Observer and KIA Captain Charles Ramsay.
